FAYDER ARROYO

DATA & INFORMATION ANALYTICS SPECIALIST
INDUSTRIAL ENGINEER

🔗 Projects & Web Portfolio

Professional Summary: Data Analyst and Industrial Engineer specializing in Business Intelligence, Predictive, and Prescriptive Analytics. Expert in transforming large datasets into high-impact business solutions using Power BI, SQL, Python, and Machine Learning models (XGBoost, Prophet). Experienced designer and developer of cloud-deployed analytics platforms and data systems.

🎓 EDUCATION

Specialization in Data Analytics & Information
Comfenalco University Foundation (2026)

⏳ Meritorious Degree Project: "*Descriptive Analytics System and ETL Process Automation for Supply Chain Optimization at Deceuninck Colombia SAS*"

B.S. in Industrial Engineering
Comfenalco University Foundation (2020)

A.S. in Quality Control
Comfenalco University Foundation (2018)

A.S. in Information Systems Analysis
SENA (National Learning Service) (2012)

💡 SKILLS & TECH STACK

📊 BI & DATAVIZ
- Power BI (DAX)
- Looker Studio
- Streamlit
- Excel / Power Query

🤖 DATA SCIENCE & ML
- Python & R Studio
- Prophet (Forecasting)
- XGBoost / Scikit-Learn
- Causal Modeling

⚙️ CLOUD & FULLSTACK
- Advanced SQL
- Node.js & Vercel
- PostgreSQL / Supabase
- ETL, Parquet & Git

🎯 BUSINESS & ERP
- Oracle Netsuite
- SLA, NPS & Mora Metrics
- Budget Control
- Market Research

💼 RECENT PROFESSIONAL EXPERIENCE

Data Analyst / Market Research
National Unified Corporation of Higher Education (CUN)
Feb 2026 - Aug 2026 | Hybrid
- Designed and executed quantitative and qualitative market research studies.
- Data cleaning, integration, and statistical analysis of multi-source datasets.
- Developed strategic executive dashboards to support decision-making.

Tech Innovation & Management Advisor
IPS SYSO EMPRESARIAL S.A.S.
Sep 2025 - Dec 2025 | Cartagena, Colombia
- Led digital transformation projects and report automation (Power BI / Looker Studio).
- Data integration across maintenance, infrastructure, and healthcare records.
- Coordinated suppliers and supported technical budget management.

Data Analyst / BI Analyst
Fox Ordering
Jan 2026 - Apr 2026 | Remote
- Created and optimized dashboards and key performance indicators (KPIs, SLAs, NPS).
- Analyzed massive datasets with SQL to identify operational bottlenecks.
- Version control and documentation of reporting assets using Git.

Financial Data Planning Analyst
3 Castillos
Apr 2024 - Sep 2025
- Statistical analysis of financial data for accurate budgeting and forecasting.
- Data collection automation using Excel Power Query and interactive Power BI dashboards.

💼 OPERATIONAL EXPERIENCE & HISTORY

Operations Supervisor

CREDI JAMAR S.A. (2015 - 2024 | 9 years)

- Executed monthly Strategic Collection Plan (PEC) and managed team productivity targets.
- Designed and implemented internal control dashboards in Power BI, reducing processing time from **4 hours to 25 minutes**.
- Daily allocation of credit services optimizing route planning and tracking effectiveness indicators.

Credit & Portfolio Analyst

CREDI JAMAR S.A. (2008 - 2014 | 6.5 years)

- Overdue portfolio recovery through direct negotiation and structured payment agreements.
- End-to-end claim management (PQR) and auditing credit approval workflows.

🚀 FEATURED PROJECTS & ANALYTICS PLATFORMS

Supply Chain Analytics & ETL Dashboard (Deceuninck) — FastAPI · React · PostgreSQL

Meritorious Degree Project. Migrated legacy Excel/VBA macros to a modern cloud web architecture for multinational manufacturer Deceuninck (Cartagena Plant). Automated ETL pipeline, ABC inventory classification, descriptive/diagnostic demand analysis, and real-time customs/logistics tracking.

Revenue Command Center - Prescriptive Analytics — Streamlit · XGBoost · Prophet

B2B Revenue Management system for price and margin optimization. Implemented causal price elasticity modeling (-2.08) and demand forecasting, preventing $797M COP in credit risk.

PharmaLife BI Dashboard — Streamlit · Python · AI

Executive Business Intelligence and predictive analytics platform for pharmaceutical labs. Integrated OLS elasticity modeling and custom interactive dashboards.

Analytics & HR Platform (NexoBioger / Talent Hub) — Node.js · Vercel · Supabase

Predictive analytics ecosystem for HR and mass payroll auditing. Reconciled $17B+ COP in financial data, detecting discrepancies in social security and consolidation metrics.

📜 DIPLOMAS, COURSES & CERTIFICATIONS

Postgrad in Data Analytics (Meritorious)
Comfenalco (Graduated 2026)

Data Analysis & BI Certification
UTB - MINTIC (2024)

Microsoft Power BI Specialist
University of Catalonia (2021)

Project Management & Formulation
Comfenalco University (2021)

Applied Statistics for Business
University of Catalonia (2021)

Data Engineer & AI Career Track
Platzi (Python, SciKit-Learn, SQL)
